INFORMATION ON THE CREDIT RISK RELATING TO THE LOANS

The making of the Loans is collateralised.

The collateral provided by the Mortgagor for the Loans is sufficient as the loan-to-value ratio of the security for the Previous Loan and the Loan is approximately 46.9% and 53.2% based on the value of the security which was determined with reference to the net value of RMB142.1 million of Fund B as of 31 December 2020 and the net value of RMB517.3 million of Fund A as of 31 December 2020, respectively.

The provision of the Loans was also made on the basis of the Company's credit assessments made on (i) the collateral provided by the Mortgagor, which involve the interests in the Fund A and Fund B, (ii) the fact that the Customer was our existing customer with no default record; and (iii) the financial strength and repayment ability of the Customer and the guarantors. After having taken into account the factors as disclosed above in assessing the risks of the Loans, the Directors (including the independent non-executive Directors) considered that the risks involved in the provision of the Loans to the Customer is relatively low.

REASONS FOR AND BENEFITS OF THE LOAN AGREEMENTS

The Group is principally engaged in providing loans to SMEs, micro-enterprises and individual entrepreneurs and investment consulting services in the PRC. The provision of the Loans to the Customer is in the ordinary and usual course of business of the Group.

Having considered (i) the interest income to be received by the Group; (ii) the value of the collateral; and (iii) the satisfactory financial background of the Customer, the Directors are of the view that the Loan Agreements (i) are on normal commercial terms; and (ii) are on terms that are fair and reasonable and in the interests of the Company and Shareholders as a whole.
